

NOTICE TO ALL BUILDERS, DEVELOPERS, CONTRACTORS & HOMEOWNERS

Effective immediately, the Prince William County Service Authority will change its policy concerning Sanitary Sewer Clean-outs on Single Family Residential units as follows:

- Sanitary sewer clean-outs will no longer be required at the property line providing it meets the following minimum requirements:
 - Clean-out spacing will meet the requirements of the International Plumbing Code and/or the Counsel of American Building Officials Code adopted by Prince William County's Plumbing Department.
 - A clean out will be provided within 5-feet of the exterior of the home. This clean out must be accessible at all times.

- Current projects constructed under an approved utility permit will be required to complete the project installing the clean-outs at the property line. **No exceptions**

- Projects where the Utility Permit is issued on or after June 1, 2003 will not be required to install the clean-outs as may be shown on the approved plans.
